

*Protect yourself against pandemic flu including swine flu*

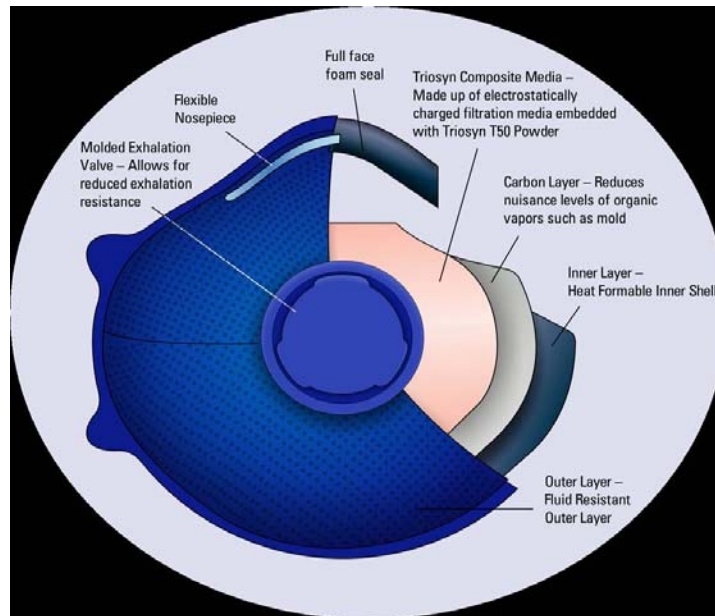

**T-5000v Safe Life™ Disposable Respirators  
with Triosyn® Antimicrobial Protection**

There are many masks claiming to offer viral protection but the T-5000v offers word class protection and provides excellent respiratory protection from pandemic influenza, such as swine flu, bird flu etc. As a P3 mask, it offers the highest protection in terms of air filtration as you breathe, proven to be 99.99% effective in stopping viruses. Furthermore, its UK APF (assigned protection factor) is 20, which again is the highest for this type of mask. The major advantage with this mask is that it contains Safelife/Triosyn® – filtering and killing any viruses trapped on the mask. Conventional masks do not kill the filtered viruses and so do not provide such high overall protection.

**Box of 5 masks £28.05 (£5.61 per mask)**

**If you require a larger quantity, please contact our sales team**

## Features

- Cup-shaped design with full surround cushioned gasket allows for a tighter fit with reduced potential air leakage.
- FFP3 Certification with PPE Notified Body (INSPEC in UK) endorsement of exceptional viral filtration claims (99.99%)
- NIOSH Approved P95 Particulate Respirator: TC-84A-4110
- Consistent and exceptional filtration performance against viruses
- Antimicrobial protection maintains the integrity of the filtration media and prevents microbial migration and strikethrough over an extended period of time
- Fluid-resistant to protect against splashes and sprays of blood and other bodily fluids as well as wet environmental contaminants
- Activated carbon layer for relief from organic vapors and nuisance odors
- Adjustable head straps and adjustable nose piece for a secure and comfortable fit
- Full-surround foam gasket to snugly fit multiple face shapes
- Guaranteed performance for 5 years from date of manufacture.
- Certificated to EN149:2001 meaning that the mask conforms with council directive 89/686/EEC and associated amendments relating to Personal Protective Equipment.
